

## TECHNIK & SPEZIFIKATION

- Engine: KTM 690ccm E-Starter
- Power: 80 hp
- Weight: 125 kg
- TachoAIM Mxm GPS Dash Logger
- Front brake disc 2x 290mm fully floating
- Rear brake disc 1x 220mm fully floating
- Brake Front Brembo RCS Corsa Corta 19mm
- Front brake caliper Brembo Stylema
- Rear brake caliper form 4 pistons
- Aluminium forged wheels Dymag UP7X 3.5 "x17" & 5.5 "x17"
- Exhaust stainless steel racing exhaust [103 dBA]
- CNC triple clamp with offset adjustment 26 & 28 mm
- Fork WP Apex Pro 7543 close cartridge
- Shock WP shockabsorber with KMC setting [fully adjustable]
- Chain 520 DID ERV Racing
- Fairing material GRP with carbon / kevlar reinforcement (white gelcoat finish)
- Steering damper Hyper Pro RCS
- CNC handlebar stub with interchangeable tubes
- Tank self-supporting rear made of XPE [12 liters]
- Steel trellis frame 25CrMo4
- Quickshifter
- Mapping options - variable engine brake
- Air filter racing DNA
- Front brake caliper screws made of titanium
- Frame crash pads
- Fork fist crash pads
- Brake lever protection
- Oil screws lock wired
